

## **MILogin/MI School Data Migration**

### **Frequently Asked Questions**

**Q1:** What type of MILogin account is needed to access MI School Data?

**A2:** District/school personnel must have a [Third Party MILogin](#) account for the migration to be successful. Citizen MILogin accounts will not be migrated.

**Q2:** I have more than one Third Party MILogin account that uses the same email address. Which account will be migrated with my MI School Data account?

**A2:** The Center for Educational Performance and Information will contact you via email to determine which MILogin account you would like to use.

**Q3:** What steps are taken to ensure accounts remain secure during the migration to MILogin?

**A3:** The Center for Educational Performance and Information is considering multiple options that would provide validation of each MI School Data account that is migrated.

**Q4:** I have multiple MI School Data accounts for the same school/district. Which account will be migrated with my MILogin account?

**A4:** A separate Third Party MILogin account will be needed for each MI School Data account.

**Q5:** When do I start using MILogin to access secure data on MI School Data?

**A5:** The redesigned MI School Data is planned for a summer release. At that time, secure users will use their MILogin account to log into MI School Data. Until, please continue accessing secure data on MI School Data as you normally would.

**Q6:** Will I need a MILogin account to use MI School Data when the redesign is launched?

**A6:** Public data will be available on the site the same way it is now. You will need a MILogin account to log into MI School Data and review secure data/reports.

**Q7:** At what point will ISD administrators see the migrated secure accounts in MI School Data?

**A7:** ISD administrators will see any migrated accounts in MI School Data as soon as the migration has been completed. After that, the accounts will appear in MI School Data once the user has subscribed to MI School Data through their Third Party MILogin account.

**Q8:** Will MI School Data roles and permissions show within MILogin?

**A8:** No, roles and permissions will be visible to the ISD administrator only in MI School Data.
